Slovenian language -ISO-Codes - Accounting standards

The Slovenian language, with its associated ISO codes, is primarily spoken in Slovenia but also by minority groups in several neighboring countries. The accounting standards applied depend on the type and size of the entity.

☐☐ Countries Where Slovenian is Spoken

Slovenian (\$\text{slovenščina}\$ or \$\text{slovenski jezik}\$) is a South Slavic language.

Country	Status/Presence	ISO 3166-1 Alpha-2 Code (Country)
Slovenia	Official/National Language	SI
Italy	Recognized minority language in certain regions (e.g., Friuli Venezia Giulia)	IT
Austria	Recognized minority language in southern Carinthia	AT
Hungary	Recognized minority language in the Rába Valley area	HU
Other Countries	Smaller diaspora communities exist globally (e.g., in the US, Canada, Argentina)	-

ISO Language Codes

The international codes for the Slovenian language (\$\text{slovenščina}\$) are:

- ISO 639-1: sl (two-letter code)
- ISO 639-2: slv (three-letter code)
- Locale Code (Slovenia): sl-SI

☐☐ Applicable Accounting Standards

Slovenia, as a member of the European Union (EU), follows the requirements of EU Directives, which are transposed into national law, primarily through the Companies Act (ZGD-1).

The main accounting standards used are:

- Slovenian Accounting Standards (SAS) ($\text{\text{Slovenski računovodski standardi}}$): These are developed by the Slovenian Institute of Auditors (SIA) and are the primary national standards for most entities. They incorporate the requirements of the EU Accounting Directive (2013/34/EU).
- International Financial Reporting Standards (IFRS) as adopted by the EU: These standards are required for certain types of entities.

Entity Type	Applicable Accounting Standards
Public Interest Entities (e.g., listed companies, banks, insurance companies, pension funds)	IFRS as adopted by the EU for both consolidated and separate financial statements.
Medium and Large-sized Entities (not public interest)	Slovenian Accounting Standards (SAS) or, optionally, IFRS as adopted by the EU.
Micro and Small-sized Entities	Slovenian Accounting Standards (SAS).

Note: The adoption of IFRS for SMEs (International Financial Reporting Standard for Small and Medium-sized Entities) is not required in Slovenia.

Would you like to know more about the specific requirements for adopting IFRS in Slovenia or the structure of the Slovenian Accounting Standards (SAS)?

Slovenia - Business type structures

Slovenia – Business type structures

In Slovenia, the way a business is taxed is directly linked to whether it is structured as an individual/sole proprietorship or a separate corporate legal entity.

Significant updates have overhauled this system, specifically shifting rules for sole traders, rewriting personal income tax scales, and capping social security contributions.

☐1. **Individual Structures (Sole Traders)**

Sole Entrepreneur (Samostojni podjetnik – s.p.)

An s.p. is a natural person performing business activity. They do not pay corporate tax; instead, they are

subject to Personal Income Tax (Dohodnina) and mandatory self-employed social security contributions.

There are two radically different ways an s.p. can choose to calculate their tax base:

Option A: Normalized Expenses Regime ("Normiranci")

This is highly popular for freelancers, consultants, and small tech developers with low overhead. Instead of keeping track of actual receipts, the state automatically recognizes a flat 80% standardized expense deduction on your revenue up to a certain threshold. No actual costs can be deducted, and personal tax allowances are frozen.

- **Tax Base:** Tax is calculated on the remaining 20% of your revenue.
- **The Flat Tax Rate:** The taxable base is subject to a flat income tax rate of 20% (making the effective tax rate roughly 4% of total revenue).
- **Strict Revenue Brackets:**
 - Full-time s.p.: Can apply the 80% rule on revenues up to €72,000. Above this, a higher progressive rate of 35% applies to the excess taxable base. The absolute entry threshold is capped at €120,000 (provided you were fully insured for 9 continuous months).
 - Part-time s.p. ("Popoldanski s.p."): Used by individuals already employed elsewhere full-time. The 80% rule applies up to €33,000 of revenue, with 35% applied above it. Entry is strictly capped at €50,000.
- **The Re-entry Restriction:** If you exit the standardized system or close the business, you are legally locked out from re-entering it for 5 years.

Option B: Actual Expenses Regime ("Knjigovodski s.p.")

If your revenue exceeds the standardized limits or you have heavy physical overhead (rent, stock, employees), you must track actual revenues and expenses using double-entry or single-entry bookkeeping.

- **Tax Rate:** Your net profit (Revenue – Actual Documented Costs) is funneled directly into your personal capacity and taxed using the standard Slovenian Progressive Income Tax Scale:

2026 Taxable Net Profit Bracket	Tax Rate
Up to €9,721.43	16%
€9,721.43 to €28,592.44	26%
€28,592.44 to €57,184.88	33%
€57,184.88 to €82,346.23	39%
Over €82,346.23	50%

2. Partnerships (Personal Companies)

Unlimited Liability Company (d.n.o.) & Limited Partnership (k.d.)

Unlike Anglo-American jurisdictions where partnerships are transparent "pass-through" entities for tax purposes, Slovenian partnerships are treated as separate legal entities under the Corporate Income Tax Act (ZDDPO-2).

- **Business Level:** Both d.n.o. and k.d. structures pay the standard 22% Corporate Income Tax (CIT) on their net taxable profit. They submit a standard corporate tax return via the eDavki portal.
- **Owner Level:** When the remaining after-tax profit is distributed to the partners, it is treated as a Dividend / Capital Distribution and subject to a final 25% withholding tax.
- **Exception for General Partners:** If an individual partner works full-time inside the d.n.o., their regular monthly payouts are processed via payroll, subjected to personal income brackets, and deducted as labor costs at the corporate partnership level.

3. Capital Companies (Corporate Entities)

Limited Liability Company (d.o.o.) & Joint-Stock Company (d.d.)

These are standard capital companies. The taxation is completely decoupled from the owners' personal finances and follows a two-tier tax application:

Tier 1: Corporate Income Tax (CIT)

The entity pays corporate tax on its accounting profit adjusted for tax purposes.

- **Standard CIT Rate:** 22%. (This includes the temporary 3% surcharge funding flood reconstruction, slated to remain active through 2028).
- **Tax Exemptions:** Dividends received from other Slovenian or EU corporate subsidiaries are generally 95% exempt from tax to avoid double corporate taxation, provided anti-abuse requirements are met. Capital gains realized from selling shares in subsidiaries are also 50% exempt under specific holding-period conditions.

Tier 2: Distribution to Shareholders (Withholding Tax)

Once the d.o.o. or d.d. satisfies its legal reserve allocations (filtering profits to hit the mandatory 10% share capital reserve ceiling), it distributes dividends to shareholders.

- **To Slovenian Residents (Individuals):** Subjugated to a final 25% Withholding Tax (WHT) collected by the company. It does not enter the individual's progressive annual income tax calculation.
- **To Corporate Shareholders:** If a Slovenian company pays a dividend to another corporate entity (domestic or EU), the withholding tax is 0% if the parent entity holds at least 10% of the capital for a continuous period of at least 24 months (EU Parent-Subsidiary Directive).

4. The 2026 Social Security Contribution Cap

Regardless of whether you run an s.p. or are employed as a managing director inside your own d.o.o., social security contributions (healthcare, pension, disability, employment) carry heavy weight in Slovenia, totaling roughly 38.2% of gross labor allocations (22.1% paid by employee, 16.1% paid by employer).

The Social Cap (Socialna kapica): The maximum monthly base for calculating all social security contributions is strictly capped at €7,500. Any salary or entrepreneurial base exceeding €7,500 per month is exempt from further social contributions, preventing the tax burden on top-tier technical and managerial talent from expanding linearly.

Would you like to analyze an exact numerical comparison between running a specific gross revenue through an s.p. (Normiranec) versus a standard d.o.o. structure to see the net cash-in-hand outcome?

10 Primary Classes (0-9) of the Slovenian Chart of Accounts

Chart of Accounts for Small and Medium enterprises (SAS)

Slovenia uses a strictly structured, mandatory uniform framework known as the **Recommended Uniform Chart of Accounts** (*Priporočeni enotni kontni načrt*). It is designed by the **Slovenian Institute of Auditors (SIA)** (*Slovenski inštitut za revizijo*) and approved by both the Ministry of Finance and the Ministry of Economic Development.

For Small and Medium Enterprises (SMEs) operating under **Slovenian Accounting Standards (SAS)** (*Slovenski računovodski standardi*), this 10-class decimal system layout is mandatory for double-entry bookkeeping. It guarantees that data can be cleanly extracted for both financial statements (submitted to **AJPES**) and tax declarations (**FURS**).

▣▣▣**The 10 Primary Classes (0-9) of the Slovenian Chart of Accounts**

The chart maps the full balance sheet, income statement, and internal cost centers across classes 0 to 9.

Class	Slovenian Classification Name	English Equivalent	Financial Statement Impact
0	<i>Dolgoročna sredstva</i>	Long-term (Non-current) Assets	Balance Sheet (Assets)
1	<i>Kratkoročna sredstva (razen zalog in ČZR)</i>	Short-term (Current) Assets (Excl. Inventory)	Balance Sheet (Assets)
2	<i>Kratkoročne obveznosti in PČZR</i>	Short-term Liabilities & Accruals	Balance Sheet (Liabilities)
3	<i>Zaloge surovin, materiala in drobnega inventarja</i>	Inventory of Raw Materials & Supplies	Balance Sheet (Assets) / Class 4/7
4	<i>Stroš ki po vrstah</i>	Expenses by Nature (Type)	Income Statement (Operating)
5	<i>Prosti razred / Stroš kovna mesta</i>	Free Class / Cost Centers	Internal Management Accounting
6	<i>Zaloge proizvodov in blaga</i>	Inventory of Products & Merchandise	Balance Sheet (Assets)
7	<i>Odhodki in prihodki</i>	Operating Expenses & Revenues	Income Statement (Sales / COGS)
8	<i>Poslovni izid</i>	Financial Result (Profit or Loss)	Year-end Closing Accounts
9	<i>Kapital, dolgoročne obveznosti in rezervacije</i>	Equity, Long-term Liabilities & Provisions	Balance Sheet (Equity & Liabilities)

▣▣▣**Detailed Group Breakdown for SMEs (SAS Alignment)**

▣▣▣**Class 0: Long-term Assets (*Dolgoročna sredstva*)**

Tracks physical infrastructure, long-term capital investments, and amortized assets.

- **00:** Intangible assets & long-term deferred costs (*Neopredmetena sredstva*) —e.g., software, capitalized development costs (**002**), and goodwill (**000**).
PISRS
- **01:** Investment property (*Nalož bene nepremičnine*).
- **02:** Land and buildings (*Zemljiš ča in zgradbe*).
PISRS
- **03:** Accumulated depreciation of land and buildings (*Popravek vrednosti nepremičnin*).
PISRS
- **04:** Equipment, machinery, and other property, plant & equipment (*Oprema in druga opredmetena osnovna sredstva*).
- **05:** Accumulated depreciation of equipment (*Popravek vrednosti opreme*).
- **06:** Long-term financial investments (*Dolgoročne finančne nalož be*) —shares in group companies or subsidiaries.

- **07:** Long-term loans granted (*Dana dolgoročna posojila*).

▣▣Class 1: Short-term Assets (*Kratkoročna sredstva*)

Handles standard operating liquid assets, short-term debt collections, and liquid cash.

- **10:** Cash in hand (*Gotovina v blagajni*) and cash equivalents.
- **11:** Bank accounts (*Dobroimetje pri bankah*) — separate sub-accounts track domestic currency (Euros) and foreign currencies.
PISRS
- **12:** Short-term trade receivables (*Kratkoročne terjatve do kupcev*) — **120** for domestic customers (*Kupci v državi*) and **121** for foreign customers (*Kupci v tujini*).
- **13:** Short-term financial investments & loans granted (*Kratkoročne finančne naložbe*).
- **16:** Short-term receivables from state institutions (*Terjatve do državnih institucij*) — tracks input VAT claims (*Vstopni DDV*).

▣▣Class 2: Short-term Liabilities (*Kratkoročne obveznosti*)

Operating obligations falling due within a 12-month fiscal window.

- **22:** Short-term trade payables (*Kratkoročne obveznosti do dobaviteljev*) — **220** for domestic suppliers and **221** for foreign vendors.
- **24:** Short-term liabilities to employees (*Obveznosti do zaposlenih*) — handles accrued monthly net payroll and wages.
- **25:** Short-term liabilities for taxes and contributions (*Obveznosti za davke*) — payroll taxes, contributions, and output VAT (*Izstopni DDV*).
- **26:** Short-term financial liabilities (*Kratkoročne finančne obveznosti*) — short-term bank loans.

▣▣Class 3 & 6: Inventories (*Zaloge*)

Slovenian accounting neatly isolates production materials from trading merchandise.

- **Class 3:** Raw materials, materials, packaging, and small inventory (*Zaloge materiala*).
- **Class 6:** Finished goods, work-in-progress, and trading merchandise stored at warehouses or retail locations (*Zaloge proizvodov in blaga*).

▣▣Class 4: Expenses by Nature (*Stroški po vrstah*)

Every operational expenditure must be captured chronologically in Class 4 first.

- **40:** Cost of materials and auxiliary items used (*Stroški materiala*).
- **41:** Cost of external services (*Stroški storitev*) — rent, transport, local accounting fees, and advertising.
- **42:** Depreciation and amortization expenses (*Amortizacija*).
- **43:** Labor costs (*Stroški dela*) — gross wages (**430**), social insurance costs covered by the employer (**431**), and food/travel allowances.
- **47:** Other operating expenses (*Drugi poslovni odhodki*) — production safety costs, environmental charges.

Class 5: Internal Cost Accounting (*Stroškovna mesta*)

- **Usage is entirely free/optional:** Under SAS, companies use Class 5 to clear costs out of Class 4 and allocate them directly into internal production cost centers (*Stroškovna mesta*) or functional divisions (e.g., Administration vs. Sales). If an SME doesn't need distinct internal cost accounting, Class 5 is skipped completely.

Class 7: Operating Revenues & Expenses (*Odhodki in prihodki*)

Used to generate the operational profit and loss statement.

- **70:** Operating expenses associated with production or manufacturing sales.
- **71:** Cost of Goods Sold / Cost of trading merchandise sold (*Nabavna vrednost prodanega blaga*).
- **74:** Revenues from sale of products or services (*Prihodki od prodaje proizvodov in storitev*).
- **76:** Revenues from trading merchandise sold (*Prihodki od prodaje blaga*).
- **77:** Financial revenues (*Finančni prihodki*) —interest received from loans, foreign exchange gains.
- **78:** Financial expenses (*Finančni odhodki*) —interest paid on bank loans, foreign exchange losses.

Class 8: Financial Result (*Poslovni izid*)

- **80 / 81:** Clearing accounts where revenues (Class 7) and expenses (Class 4/7) are mathematically matched at midnight on December 31 to isolate the final accounting Net Profit or Net Loss for the year.

Class 9: Equity & Long-term Liabilities (*Kapital in dolgoročne obveznosti*)

- **90:** Registered share capital (*Osnovni kapital*) and paid-in capital reserves.
- **91:** Revenue reserves (*Rezerve iz dobička*) —legally protected funds including mandatory legal reserves (**912**).
- **94:** Retained earnings/accumulated loss from prior years (*Zadržani čisti dobiček/izguba*).
- **95:** Long-term provisions (*Dolgoročne rezervacije*) —termination/severance reserves or environmental restoration liabilities.
- **96:** Long-term financial liabilities (*Dolgoročne finančne obveznosti*) —bank loans extending beyond 12 months.

Slovenia - Chart of Accounts Ledger structures

Slovenia – Chart of Accounts Ledger structures

Here are the synchronized general ledger structures expanded to include direct English translations alongside the official Slovenian terminology.

1. The 10 Primary Classes (0–9)

Class	Slovenian	English Account	Financial Statement
-------	-----------	-----------------	---------------------

	Classification Name	Description	Impact
0	Dolgoročna sredstva	Long-term (Non-current) Assets	Balance Sheet (Assets)
1	Kratkoročna sredstva (razen zalog in ČZR)	Short-term (Current) Assets (Excl. Inventory)	Balance Sheet (Assets)
2	Kratkoročne obveznosti in PČZR	Short-term Liabilities & Accruals	Balance Sheet (Liabilities)
3	Zaloge surovin, materiala in drobnega inventarja	Inventory of Raw Materials & Supplies	Balance Sheet (Assets) / Class 4/7
4	Stroški po vrstah	Expenses by Nature (Type)	Income Statement (Operating)
5	Prosti razred / Stroškovna mesta	Free Class / Cost Centers	Internal Management Accounting
6	Zaloge proizvodov in blaga	Inventory of Products & Merchandise	Balance Sheet (Assets)
7	Odhodki in prihodki	Operating Expenses & Revenues	Income Statement (Sales / COGS)
8	Poslovni izid	Financial Result (Profit or Loss)	Year-end Closing Accounts
9	Kapital, dolgoročne obveznosti in rezervacije	Equity, Long-term Liabilities & Provisions	Balance Sheet (Equity & Liabilities)

2. Core Accounting Group Breakdown for SMEs

Account Group	Slovenian Group Name	English Account Description
00	Neopredmetena sredstva	Intangible assets & long-term deferred costs
01	Naložbene nepremičnine	Investment property
02	Zemljišča in zgradbe	Land and buildings
03	Popravek vrednosti nepremičnin	Accumulated depreciation of land and buildings
04	Oprema in druga opredmetena osnovna sredstva	Equipment, machinery, and other property, plant & equipment
05	Popravek vrednosti opreme	Accumulated depreciation of equipment
06	Dolgoročne finančne naložbe	Long-term financial investments (Shares/interests)
07	Dana dolgoročna posojila	Long-term loans granted
10	Gotovina v blagajni	Cash in hand and readily convertible securities
11	Dobroimetje pri bankah	Balances with banks and other financial institutions
12	Kratkoročne terjatve do kupcev	Short-term trade receivables
13	Kratkoročne finančne naložbe	Short-term financial investments & loans granted
16	Terjatve do državnih institucij	Short-term receivables from state institutions (e.g., Input VAT)
22	Kratkoročne obveznosti do dobaviteljev	Short-term trade payables

24	Obveznosti do zaposlenih	Short-term liabilities to employees (Net payroll)
25	Obveznosti za davke	Short-term liabilities for taxes and contributions (e.g., Output VAT)
26	Kratkoročne finančne obveznosti	Short-term financial liabilities (Short-term loans)
40	Stroški materiala	Cost of materials and auxiliary items used
41	Stroški storitev	Cost of external services (Rent, transport, utilities)
42	Amortizacija	Depreciation and amortization expenses
43	Stroški dela	Labor costs (Gross wages & employer contributions)
47	Drugi poslovni odhodki	Other operating expenses (Safety, environmental charges)
70	Poslovni odhodki	Operating expenses associated with production/manufacturing
71	Nabavna vrednost prodanega blaga	Cost of Goods Sold (COGS) / Cost of trading merchandise
74	Prihodki od prodaje proizvodov in storitev	Revenues from sale of manufactured products or services
76	Prihodki od prodaje blaga	Revenues from trading merchandise sold
77	Finančni prihodki	Financial revenues (Interest received, FX gains)
78	Finančni odhodki	Financial expenses (Interest paid, FX losses)
90	Osnovni kapital in kapitalove rezerve	Registered share capital and paid-in capital reserves
91	Rezerve iz dobička	Revenue reserves (Legally protected profit allocations)
94	Zadržani čisti dobiček / preneseni čisti poslovni izid	Retained earnings / Accumulated historical loss
95	Dolgoročne rezervacije	Long-term provisions (Severance, environment commitments)
96	Dolgoročne finančne obveznosti	Long-term financial liabilities (Bank loans over 12 months)

3. VAT (DDV-O Return) Mapping Ledger

The specific general ledger sub-accounts match the official DDV-O national return box structures:

Output VAT Accounts (Class 2)

G/L Account Code	Slovenian Account Name	English Account Description	DDV-O Base	DDV-O Tax
2500	Obračunani DDV od prodaje po stopnji	Calculated output VAT from sales at	Box 11	Box 21

	22%	the standard 22% rate		
2501	Obračunani DDV od prodaje po stopnji 9.5%	Calculated output VAT from sales at the reduced 9.5% rate	Box 12	Box 22
2520	Obračunani DDV od pridobitev iz EU (22%)	Calculated output VAT on intra-EU acquisitions (22%)	Box 13	Box 23
2530	Obračunani DDV kot plačnik / Samoobdavčitev	Calculated output VAT as payer / Reverse charge mechanisms	Box 15	Box 25
7400	Prihodki od izvoza blaga (izven EU)	Revenues from export of goods (Outside the EU)	Box 31	N/A
7410	Prihodki od dobav blaga znotraj EU	Revenues from B2B intra-EU supplies of goods	Box 32	N/A

Input VAT Accounts (Class 1)

G/L Account Code	Slovenian Account Name	English Account Description	DDV-O Base	DDV-O Tax
1600	Vstopni DDV od nabav v državi po stopnji 22%	Deductible domestic input VAT from purchases at 22%	Box 51	Box 41
1601	Vstopni DDV od nabav v državi po stopnji 9.5%	Deductible domestic input VAT from purchases at 9.5%	Box 52	Box 42
1620	Vstopni DDV od pridobitev iz EU	Deductible counter-balancing input VAT for EU purchases	In 51/52	Box 43
1650	Plačani in odbiti DDV pri uvozu blaga	Paid and deducted import VAT via customs clearance	N/A	

Created with the Standard Edition of HelpNDoc: [Streamline Your Documentation Process with a Help Authoring Tool](#)

Slovenia - VAT (DDV)

Slovenia - VAT (DDV)

Value Added Tax (VAT) in Slovenia is known as DDV (Davek na dodano vrednost). The system is fully harmonized with European Union VAT directives but features unique local thresholds, strict administrative filing workflows, and precise reporting box codes on the national DDV-O tax return form.

1. VAT Rates and Thresholds

Current DDV Rates

- **22% Standard Rate:** Applies to most goods and services.
- **9.5% Reduced Rate:** Applies to food, water supplies, pharmaceuticals, medical equipment, books/publications, hotel accommodation, and residential housing construction/renovation.
- **5% Special Reduced Rate:** Applies to specific electronic publications (e-books, newspapers).

Mandatory Registration Thresholds

- **Domestic Businesses:** A company or sole trader (s.p.) must register for DDV if their taxable turnover within the last 12 months exceeds €50,000. Voluntary registration is allowed below this, but the business must remain in the VAT system for a minimum lock-in period of 60 months (5 years).

Filing Frequency Threshold (€210,000)

- **Quarterly Filing:** Allowed if the previous year's taxable turnover was under €210,000 (and the business does not execute intra-EU transactions).
- **Monthly Filing:** Mandatory if turnover exceeds €210,000 OR if the entity participates in cross-border intra-EU acquisitions or supplies (requiring VIES reporting).

2. How VAT Works Administratively: The "Pre-Filled" Ledger Rule

Slovenia operates a highly modernized digital tax environment managed by the Financial Administration (FURS).

Instead of simply typing summarized numbers into a tax return at the end of the period, companies must electronically upload transactional ledger books first via the eDavki portal:

- **KIR (Knjiga izdanih računov):** The Outgoing Invoices Sales Ledger (Evidence of calculated output VAT).
- **KPR (Knjiga prejetih računov):** The Incoming Invoices Purchase Ledger (Evidence of input VAT deductions).

The Pre-Fill Rule: These two detailed ledgers must be submitted to FURS at least three working days before the final return deadline. FURS reads the transactional lines and automatically generates a Pre-Filled DDV-O return form inside the user's eDavki account. The accountant reviews the auto-populated boxes, checks for discrepancies, and signs off on the submission.

3. Aligning Chart of Accounts (Classes 1 & 2) with the DDV-O Return Boxes

To ensure your ERP system or bookkeeping software maps perfectly to the DDV-O Return form, standard general ledger accounts within Class 1 (Short-term Assets / Input VAT) and Class 2 (Short-term Liabilities / Output VAT) must track specific rates and geographic transactions.

The tables below include the requested column for English Account Descriptions alongside the official Slovenian terminology.

Output VAT (Tax Calculated on Sales) — Class 2

Your sales invoices post tax obligations to specific lines under Group 25 (Obveznosti za davke), which map directly to the DDV-O output boxes:

Standard G/L Code	Slovenian Account Description	English Account Description	DDV-O Base	DDV-O Tax	Nature of Transaction
2500	Obračunani DDV od prodaje po stopnji 22%	Calculated output VAT from sales at standard 22%	Box 11	Box 21	Standard domestic sales at 22%.
2501	Obračunani DDV od prodaje po stopnji 9.5%	Calculated output VAT from sales at reduced 9.5%	Box 12	Box 22	Reduced-rate domestic sales at 9.5%.
2520	Obračunani DDV od pridobitev iz EU (22%)	Calculated output VAT on intra-EU acquisitions (22%)	Box 13	Box 23	Intra-EU Acquisitions (Reverse Charge match).
2530	Obračunani DDV kot plačnik / Samoobdavčitev	Calculated output VAT as payer / Reverse charge	Box 15	Box 25	Other Reverse Charges (e.g., Article 76a construction).
74xx / 76xx	Prihodki – Izvoz blaga izven EU (0% DDV)	Revenues – Export of goods outside the EU (0% VAT)	Box 31	N/A	Exempt export of goods to third countries.
74xx / 76xx	Prihodki – Dobave blaga znotraj EU (0% DDV)	Revenues – B2B intra-EU supplies of goods (0% VAT)	Box 32	N/A	B2B Exempt intra-EU supplies of goods.

Input VAT (Tax Deducted on Purchases) — Class 1

Your supplier invoices claim back deductible tax through asset balances under Group 16 (Terjatve do države), matching the input deduction sections of the DDV-O:

Standard G/L Code	Slovenian Account Description	English Account Description	DDV-O Base	DDV-O Tax	Nature of Transaction
1600	Vstopni DDV od nabav v državi po stopnji 22%	Deductible domestic input VAT from purchases at 22%	Box 51	Box 41	Deductible domestic input VAT at 22%.

4. Critical Filing Deadlines

- **Standard Return Deadline:** The DDV-O return must be finalized and submitted by the last business day of the month following the end of the tax period (whether monthly or quarterly).
- **The VIES / Recapitulative Statement Exception:** If your company is a monthly filer and performs intra-EU supplies or acquisitions (requiring the submission of VIES recapitulative statements / RP-O), the absolute deadline for both the VIES statement and the DDV-O return moves forward to the 20th day of the following month.

Failure to submit these records or returns on time through eDavki carries standard penalties ranging from €2,000 up to €125,000 depending on enterprise categorization.
